KACEY DAY (ANDERSON)

Educational Program + Product Designer | Learning Experience Designer

Fort Worth, TX | KaceyNAnderson@gmail.com | (714) 225-5659

LinkedIn: linkedin.com/in/kacey-anderson-2655b9b9 | Portfolio: kaceynanderson.github.io/kacey-day-portfolio/

PROFESSIONAL SUMMARY

Educational program and learning experience designer with experience spanning competency-based education, faculty readiness, digital product development, individualized academic programming, and instructional design. Translate complex learner, stakeholder, program, and business needs into clear, evidence-informed experiences, tools, pathways, and scalable systems.

CORE CAPABILITIES

Program & Learning Design: CBE | Backward Design | Learning Architecture | Assessment | Faculty Readiness
Product & Experience Design: User Workflows | Information Architecture | Interaction Design | Prototyping
Research & Strategy: Needs Analysis | Standards Alignment | Evidence-Based Decisions | Success Metrics
Implementation & Scale: Cross-Functional Collaboration | QA | Change & Adoption | Program Launch

PROFESSIONAL EXPERIENCE

WESTERN GOVERNORS UNIVERSITY

Nov 2023-P

Senior Program Mentor, School of Technology

- Lead the Training Pod’s design and development of faculty-readiness experiences for new academic program launches, translating complex requirements into structured learning experiences, practical resources, and scalable implementation support.
- Develop reusable program-readiness frameworks and design standards including source verification, learning blueprints, accessibility and visual guidance, knowledge checks, QA expectations, and publication workflows.
- Co-lead FLIGHT, a cross-functional student-success initiative connecting students, mentors, instructors, and support resources through goal setting, study planning, progress monitoring, and targeted intervention.
- Guide FLIGHT through prototype, pilot, implementation, and adoption using stakeholder feedback, student input, testing, training, change-management strategies, workflows, and templates.
- Partner across academic, learning experience, QA, program-launch, and digital-experience teams to define scope, resolve dependencies, validate content, coordinate review, and move solutions from concept through implementation.

KACEY ANDERSON LLC

May 2022-P

Founder, Learning & Product Designer

- Lead learning and product design across an independent education practice, creating learner-facing experiences, digital tools, instructional resources, assessments, and scalable support systems.
- Designed and developed Lumavi, a multi-role educational platform supporting administrators, tutors, learners, and families through role-based workflows, progress visibility, study planning, session documentation, communication, and service management.
- Translate learner, client, and stakeholder needs into learning pathways, user workflows, information architecture, structured resources, and digital experiences.
- Use assessment results, progress data, learner feedback, and ongoing observation to evaluate effectiveness and iteratively refine learning and product experiences.

PROFESSIONAL EXPERIENCE CONTINUED

PEAK LEARNING SOLUTIONS
Jul 2023-Pr

Academic & Test Preparation Coach

- Design individualized academic and test-preparation plans using performance data, learner goals, skill gaps, and assessment timelines.
- Analyze diagnostic and practice-assessment data to identify patterns, measure progress, and continuously refine learning strategies.
- Develop customized instructional materials, practice activities, study frameworks, and performance-support resources.

ALVARADO ISD
Aug 2022-J

English I & Yearbook Teacher

- Designed standards-aligned curriculum, assessments, learning activities, and differentiated supports using student performance data.
- Integrated educational technology and evidence-based instructional practices and led the district's UIL Journalism program.

NEWPORT HEALTHCARE
Nov 2019-A

Academic Coordinator

- Designed and coordinated individualized academic pathways for adolescents in grades 7-12, aligning school requirements, learner goals, accommodations, progress, and individual needs.
- Managed academic programming across subjects and school contexts using performance, engagement, and completion data to identify barriers and prioritize interventions.
- Partnered with families, educators, school teams, and treatment professionals to maintain educational continuity and support transitions back to school or higher education.

SELECTED DESIGN WORK

FLIGHT | Enterprise Educational Systems Design
Designed the original student-facing Planner framework and helped lead its evolution into a broader cross-functional student-success initiative.

Program Readiness | Educational Program Design + Faculty Enablement
Lead development of reusable faculty-readiness experiences and frameworks for new academic program launches.

Lumavi | Digital Product + Learner Experience Design
Designed and developed a multi-role educational platform supporting administrators, tutors, learners, and families.
